

CMSI 4072 Project

Names: Ian Comey, Callista Napitupulu, Kevin Thomas

Project: Async

Date: 4/22/2025

Recent Accomplishments

- Settings page and Discussion Board improved
- Implemented dynamic routing for specific course pages
- Successfully connected Assignments to backend
- Improved fetching logic site-wide
- Assignments show up in calendar

Scheduled Tasks

- Add MFA, Google account integration
- Improve Sign up form

Identified Problems/Risks

- Messaging features may be difficult to implement with remaining time.
- Separate teacher views may be difficult to implement with remaining time, project focus may need to be fully dedicated to finishing student views. (continued from the last time)
