

CMSI 4072 Project

Names: Ian Comey, Callista Napitupulu, Kevin Thomas

Project: Async

Date: 3/24/2025

Accomplishments

- Successfully migrated to a new backend and database.
- Outlined plan for new features.
- Set up basic application routing and page layout.
- Created the home page and dashboard.
- Completed user login and authentication.
- Set up authenticated routes and redirecting (new)

Scheduled Tasks

- Finish calendar and assignment integration (in-progress).
- Create user roles (in-progress)
- Design and implement revamped discussion board layout.

Identified Problems/Risks

- Messaging features may be difficult to implement with remaining time.
- Separate teacher views may be difficult to implement with remaining time, project focus may need to be fully dedicated to finishing student views. (new)
