CMSI 4072 Project

Names: Ian Comey, Callista Napitupulu, Kevin Thomas
Project: Async
Date: 4/6/2025

Accomplishments

- Successfully migrated to a new backend and database.
- Outlined plan for new features.
- Re-designed the home page and dashboard.
- Completed user login and authentication.
- Set up authenticated routes and redirect logic.
- Implemented data fetching logic for Courses page (new).
- Designed and added a new page for Assignments (new).
- Re-designed Sidebar (new).
- Added a basic Settings page (new).

Scheduled Tasks

- Improve Settings and Discussion Board Pages (new)
- Create user roles (in-progress)

Identified Problems/Risks

- Messaging features may be difficult to implement with remaining time.
- Separate teacher views may be difficult to implement with remaining time, project focus may need to be fully dedicated to finishing student views. (continued from the last time)
